Johannes Karge

PhD Candidate at PSE & Junior Research Economist at Banque de France

Paris, Île-de-France, Frankreich

Summary

I am a PhD candidate at Paris School of Economics and a junior research economist at Banque de France focusing on macroeconomics, financial stability, corporate debt and finance, banking, economic history and climate risk.

Previously, I worked for two years at the European Central Bank within banking supervision and climate-financial risk analysis.

Studied, worked and lived in Germany, Greece, the Netherlands, Portugal and France.

✓ Research interests and fields of expertise: macroeconomics, financial stability, private sector debt, corporate finance, climate risks and econometrics

✓ Data analysis and econometric modeling with R, Python and Stata

If you are aware of interesting opportunities and projects in these areas I would be happy if you would reach out to me as I am looking forward to growing in these areas.

Experience
